

MAKER FAIRE

Na One School, durante a nossa Makerfaire, a natureza virou engenho, e o brincar, linguagem.

NATUREZA & MÁQUINAS
QUE CONTAM HISTÓRIAS

COMO EXPLICAR O MUNDO COM MÁQUINAS FEITAS POR CRIANÇAS?

COMEÇAMOS COM UMA PERGUNTA PROVOCADORA:

Como a natureza pode inspirar máquinas divertidas que explicam coisas incríveis?

As respostas vieram em forma de projetos autorais, repletos de invenção, trabalho em equipe e poesia.

Cada grupo escolheu um fenômeno natural para explicar e o fez com rodas, alavancas, fios, papelão, criatividade e escuta.

NADA FOI POR ACASO!

As máquinas foram pensadas para comunicar, convidar, encantar.

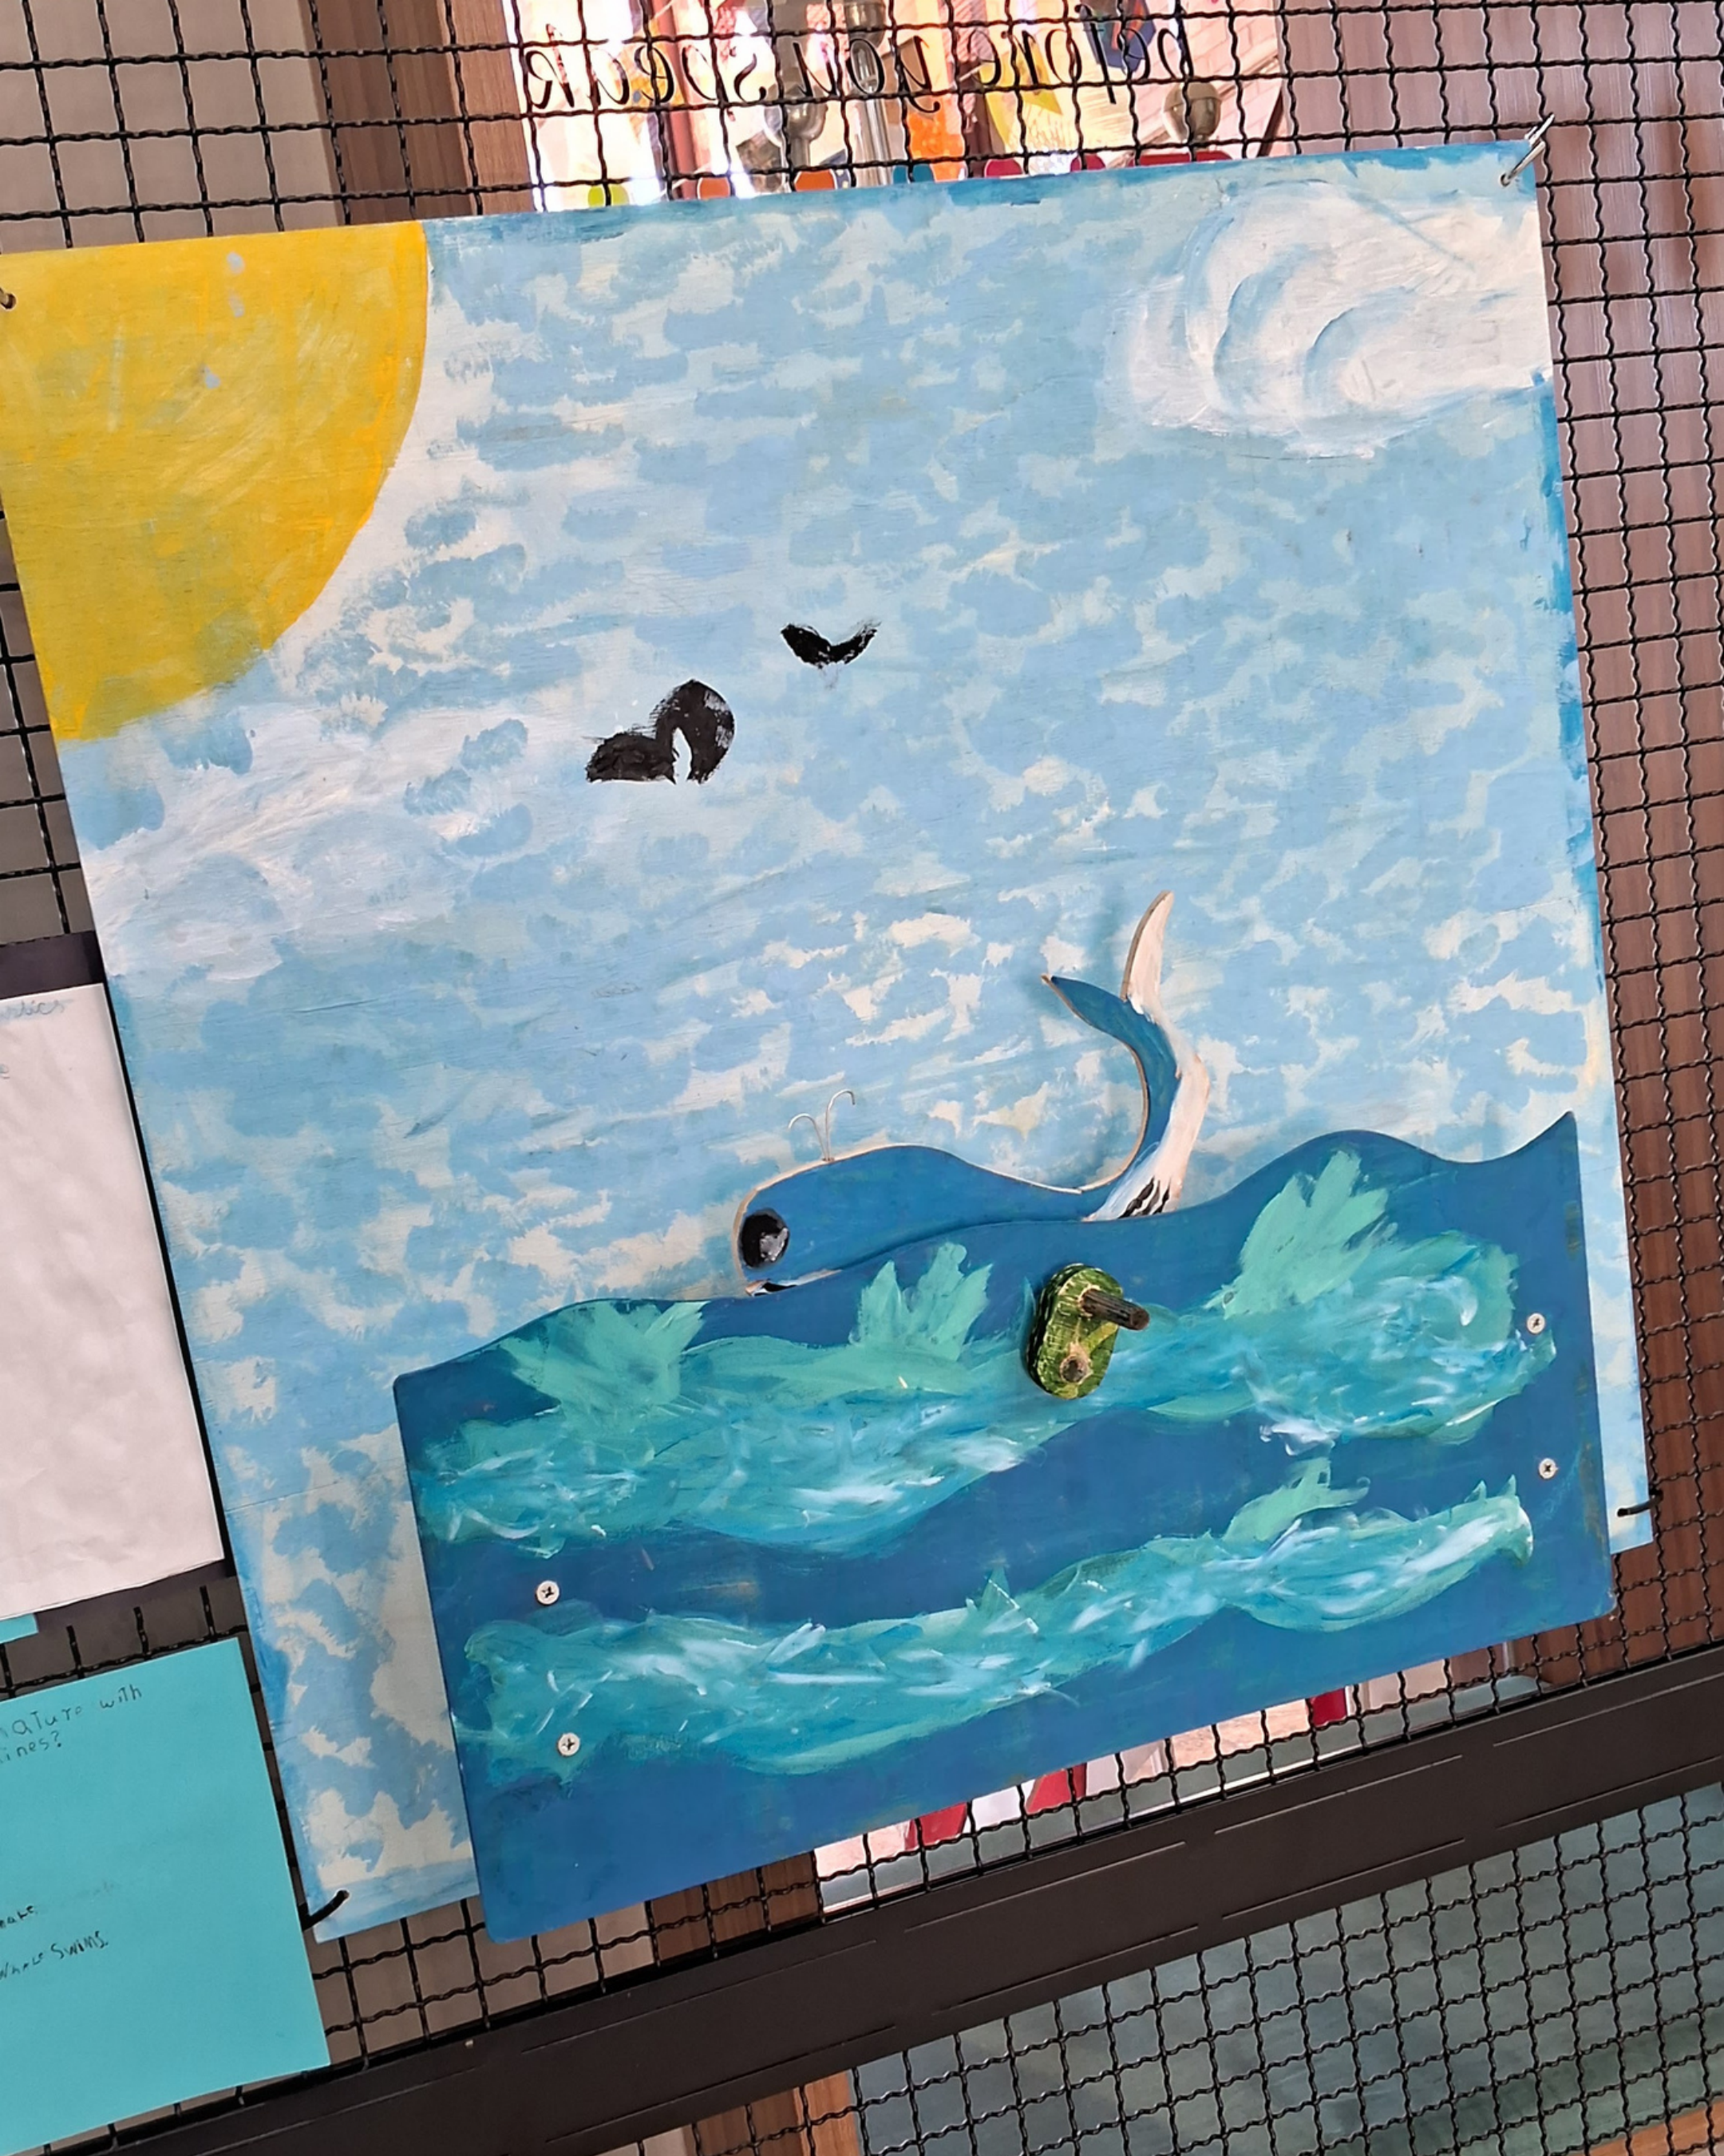

Essa experiência não é isolada. Ela faz parte de um movimento maior: despertar a linguagem da construtividade como direito da infância.

UMA LINGUAGEM QUE NASCE QUANDO AS CRIANÇAS CONSTROEM JUNTAS, EXPERIMENTAM, ERRAM, TENTAM DE NOVO.

A história completa desse percurso —
com inspiração em Kastrup, Krenak,
Pratt e Froebel — está contada no
livro Cardume.
